Steel Cardboard Baler 60 in x 30 in x 42 in 1100 lb Capacity Blue / Yellow

MODEL CBB-3000-37

Facilities Maintenance / Cardboard Baler

PRODUCT OVERVIEW

Tired of wasting time and energy stacking cardboard? With a cardboard baler, those days are over. The large chamber space allows for excellent compaction of material. Once in material is placed in the chamber, the centrally located cylinder compacts the cardboard throughout the highly efficient cycle time to create a space saving cardboard bale. Once the bale has been shaped and the cycle is complete, the user bale can then be discharged from the machine. The control panel is well positioned with large buttons for visibility and ease of use. Assemble is required and hardware is included.

KEY FEATURES

- Minimizes waste
- Enhances recycling speeds
- Painted steel construction
- AC 460V-3PH

CORE PRODUCT DATA
