

Steel Light Duty No Bump & Dump Hopper 2 Cubic Yard 2000 Lb. Capacity Blue

MODEL D-200-LD-NB

Fork Truck Attachments / D-Style Hoppers, No Bump & Dump

PRODUCT OVERVIEW

This steel Hopper is the perfect resolution for loading and unloading large amounts of items. With a steel construction, the hopper maintains a structural strength that endures the strain of consistent daily use. The manual release feature with a 60" steel cable gives the forklift driver the ability to never leave the driving position, which allows personnel to stay at a safe distance throughout the dumping process. In addition to the smooth surface, the contoured edges let items flow freely out of the hopper for a complete clearing of loaded goods. A magnet is attached to the pull cable handle for quick attachment to the side of the hopper chute.

KEY FEATURES

- Pull chain release for quick dumping
- Powder coated finish for added baked in toughness
- Fork pockets provide a solid lifting foundation
- Safety restraint secures the hopper to the fork truck

CORE PRODUCT DATA

ASSEMBLED WEIGHT
600.88 lbs
