Steel Open Sided Hopper 61-1/16 In. x 38-13/16 In. x 42-11/16 In. 2000 Capacity Blue

MODEL D-NS-100-LD

Fork Truck Attachments / Open Side Hopper

PRODUCT OVERVIEW

The open sided Hopper is ideal for the material handling industry. The hopper is designed with a steel construction for strength and durability. The open sides provide an ergonomic solution to transferring and unloading large amounts of oversized items. Hopper automatically dumps when bumper release contacts the front of the dumpster. Hopper returns to the upright and locked position automatically after it dumps. Also, includes a cable that may be operated from the seat of the fork truck to manual dump the hopper. For best use, lift the loaded or unloaded model by utilizing the fork pockets attached to the underside of the hopper. Upon reaching the destination, simply disengage the auto-release lever and the products will flow from the hopper. Mus...

KEY FEATURES

- Ideal for maneuvering oversized products
- Open sides allow for smooth unloading
- No manual unloading needed with auto-release system
- Steel product construction provides stability
