Hardened Molded Rubber Bumper 20 In. Length Black

MODEL DBE-20-1

Loading Dock Equipment / Hardened Molded Bumpers

PRODUCT OVERVIEW

The hardened molded bumper is a pre-drilled bumper that is constructed of fiber reinforced rubber containing nylon and polyester for all weather conditions. This bumper provides high impact resistance and steel reinforcement rings molded into each bumper for installation. Bumper is sold individually and installation hardware sold separately.

KEY FEATURES

- Fiber reinforced rubber construction containing nylon and polyester can be used in all weather conditions
- Hardened molded design offers high impact resistance for long lasting use
- Steel reinforcement rings molded into each bumper for quick installation
- Uses anchor bolts for a solid lag down position
