

# Steel Electric Pallet Truck with Single 32 In. Fork 2600 Lb. Capacity Black / Yellow

**MODEL EPT-SF-1232-26**

Ergonomic Solutions / Electric Pallet Truck with Single Fork

## PRODUCT OVERVIEW

There are jobs where a standard electric pallet truck will suffice, but sometimes the job requires something unique. And with the single fork electric pallet truck that requirement is fulfilled. The one fork design enables users to pick up and transfer items with a single fork pocket that would previously be difficult to maneuver such as half size pallets or bulk containers. With a walk behind set-up, the controls are organized in an accessible central location on or near the driving handle. This unit is battery operated for consistent steady use. Powder-coated finish for baked in added toughness. Horn is also included.

## KEY FEATURES

- Single fork design
- Emergency reverse belly switch instantly reverses direction
- Single handle control for precise positioning
- (2) 12V AGM batteries
