PRODUCT OVERVIEW

Transport fork truck forks easily and safely. A Fork Truck fork caddy allows the user to easily remove and install forks onto a fork truck. This is usually a dangerous and time consuming process, but this fork caddy makes it a breeze. After transporting the fork to the fork truck, rotate the handle ninety (90) degrees. Slide the fork onto the mast. The fork caddy has easy-grip handles and rolls smoothly on two (2) swivel casters. The fork caddy is lightweight and small enough for easy storage as well.
