PRODUCT OVERVIEW

Don’t worry if the bristles on your mega broom slowly wear down, there are always replacements! Whether you are changing an individual section or all of them, the unique design makes it easy. Simply take the cap off of one end of the broom and remove the needed sections. While that section is removed, it may be beneficial to clean the track from any debris. Once track is clean, simply slide the new brush section into place and secure the end cap back into the proper position.
