# Steel LED Double Strut Loading Dock Light 40 In. Length Yellow

**MODEL LL-D-40-LED-15W**

Loading Dock Equipment / LED Dock Loading Lights

## PRODUCT OVERVIEW

A dock loading light provides a great light source and helps to minimize damage during loading and unloading operations. With motion sensing technology, loading and dock areas will now have consistent visibility. When motion is detected the light will turn on and illuminate the area. After a period of no detected motion, the light will shut off, benefiting energy costs. Adjustable arms let the user choose the best direction of light distribution for each setting. Arms and bulb protecting shades are constructed of steel with powder coated finish.

## KEY FEATURES

- Motion activated
- AC power
- LED bulb type
- Double strut design
