Steel Bolt Together Mezzanine Safety Gate 111 in. x 68.5 in. x 80 in. Yellow

MODEL MEZZ-200-BT

Protective Barriers / Mezzanine Safety Gates

PRODUCT OVERVIEW

The mezzanine safety gate provides a handrail, mid-rail and kick-plate for mezzanines, without sacrificing load accessibility. With a bolt-together design, the gate can be the constructed, disassembled, or easily transferred to a new location. To accommodate the maximum load height, when utilizing a standard pallet, load positioning within the gate is critical. For greatest amount of clearance and item placement flexibility, shorter loads are recommended. The gate rotates and is balanced to allow for easy operation without the use of springs.

KEY FEATURES

- 42-3/8" high handrail
- Manually operated rotation
- Pre-drilled mounting holes
- Assembly hardware included
