Steel Pallet Dumper/Retainer 52 In. Long Forks 2000 Lb. Capacity Blue

MODEL PAL-D/R

Fork Truck Attachments / Pallet Dumper/Retainer

PRODUCT OVERVIEW

Dump loaded pallets easily without leaving the seat of your fork truck with the all welded steel pallet dumper/retainer. Unit slides onto forks and is secured by a safety restraint. Two (2) retainers hold the pallet in place while dumping the contents into a hopper or dumpster. Once the retainers have cleared the opposite end of the pallet, raise the forks and the retainers will hold the pallet on the forks. Lift the pallet to the dumping height and rest the pallet on the edge of the dumpster. Pull the chain, releasing the fork carriage, allowing the pallet to tilt and dump the load into the hopper or dumpster. When finished, simply lower to the ground until the carriage latches.

KEY FEATURES

- Dump loaded pallets easily without leaving your seat
- Two (2) retainers hold the pallet for more stability
- Pallet tilts and dumps the load into a hopper or dumpster
- Carriage latches when lowered to the ground
