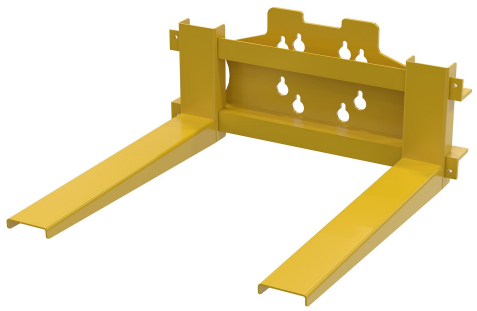
Steel Pel Adjustable Fork Attachment for PEL Models Yellow

MODEL PEL-AFK

Ergonomic Solutions / Powered Quick Lifts



PRODUCT OVERVIEW

The fork attachment allows the user to lift and transport a variety of sized items with a single attachment. Often times the most common attachments on the market are capable of only a single job, but this fork attachment is not so common. It is adaptable to fit each scenario and can be modified quickly and in the moment. The blunt tips with rounded sides minimize any unnecessary damage that can occur during the lifting and loading process. Each fork attachment is built of steel and includes a powder coat finish.

KEY FEATURES

- Each fork is individually adjustable
- 3" individual fork width
- Oversized attachment holes
- Fits directly on the quick lift's mast
