

Plastic Speed Bump Glue Down Hardware 106 In. x 10 In. x 2 In. Yellow

MODEL SBG-108

Facilities Maintenance / Speed Bumps

PRODUCT OVERVIEW

The speed bump is ideal for a variety of parking areas, both inside and out. The speed bump helps to control drivers from injuring people and property. The unit can be installed/removed by one person resulting in smooth portability. The strong recycled plastic construction can be used where traffic is frequent and can hold up to the constant day to day harm from chemicals and sunlight. Features a dual cable channel. The HD asphalt kit includes anchors, bolts and washers. The HD anchor should be epoxied (epoxy not included) into the ground and then the speed bump is secured to that anchor with a bolt and washer.

KEY FEATURES

- 100% Recycled low density polyethylene (LDPE) offers long lasting rugged use
- Rugged construction resists marring by oil, road salt, sunlight and chemicals
- High-visibility yellow color draws attention and slows traffic
- Pre-drilled mounting holes make installation quick and easy
