Steel Manual Pallet Probe Strapping Cart Blue / Yellow

MODEL STRAP-P2

Packaging Equipment / Manual Pallet Probe Strapping Cart

PRODUCT OVERVIEW

The manual pallet probe strapping cart is a quick and simple answer to a long time dilemma - getting poly strapping through your pallet. The unit increases productivity and requires low maintenance. To use, simply transport cart to your loaded pallet, extend arm, and run strapping to end clip. After strapping is secure, roll cart probe into pallet along center stringer. The strapping arm will then protrude out the other end allowing the operator to pull the strapping up and over pallet. Unit accepts polypropylene strapping. Strapping is not included.

KEY FEATURES

- Poly strapping through your pallet is quick and simple
- Increases productivity and requires low maintenance
- Roll cart probe into pallet along center string
- Strapping arm protrudes out allowing the strapping over pallet
